<https://stitchfix.com> (<https://stitchfix.com>)

Stitch Fix focuses on providing a personal style service to a variety of customers

Highlights

- Worked on a collaboration shopping experience with an influencer
- Worked on a dynamic shopping experience for clients
- Expanded the direct purchase platform

2016-12-05 — 2020-02-14

Senior Application Engineer

<https://github.com> (<https://github.com>)

GitHub focuses on tools to build software and connect people in the world of open source

Highlights

- Worked with the Community & Safety team to close abuse vectors in our existing codebase to make our users safer
- Added edit history to PRs, Issues, and comments so users could see what changed, when, and by whom

- Worked with other teams to determine what abuse vectors would be in their new features and how to best close them

2013-07-01 — 2016-11-01

Software Engineer

<https://articulate.com> (<https://articulate.com>)

Articulate focuses on the world of e-learning with a variety of products to help support e-learning environments

Highlights

- Built and launched the largest community website for e-learning professionals
- Designed and integrated single sign on for all Articulate products

2012-06-01 — 2013-04-01

Software Engineer

<http://www.brandingbrand.com/> (<http://www.brandingbrand.com/>)

R&D

Branding Brand is a company that focuses on facilitating mobile e-commerce for it's business partners

Highlights

- Built a third party shopping API so purchases could easily happen through partner websites
- Developed tools to assist in "transcoding" partner websites for mobile consumption

2010-01-01 — 2010-08-01

Software Engineer

<http://www.deeplocal.com/> (<http://www.deeplocal.com/>)

Deeplocal is a technology company that builds innovative tech for advertising

Highlights

- Wrote a script to automatically update public transit data
- Completed and tweaked an iPhone game for self parking cars
- Released a motherhood community website

2009-06-01 — 2009-08-01

Instructor

<http://tli.cs.pitt.edu/> (<http://tli.cs.pitt.edu/>)

TLI is a group that focuses on bringing computer science education to students that do not have access to programming classes in school

Highlights

- Wrote lesson plans for JavaScript, Robotics, and Computational Thinking classes
- Co-taught classes for 13-15 year old students

Volunteer

Girl Develop It

2012-01-01 — 2013-01-01

Organizer and Teacher

<https://www.girldevelopit.com/> (<https://www.girldevelopit.com/>)

A non-profit organization to help provide affordable tech instruction to women

Highlights

- Started the Pittsburgh branch of GDI
- Wrote additional course materials
- Organized events and taught classes
